Summary

Final-year Computer Science student with strong academic performance and corporate internship experience in fast-paced product environments. Built full-stack applications serving 5,000+ users and improved operational efficiency by 80%. Proficient in Java, Spring Boot, React, and problem-solving.

Skills

Languages: Java, Python, JavaScript, SQL

Frontend: React.js, HTML, CSS, Tailwind CSS

Backend: Spring Boot, Spring MVC, Spring Security, Hibernate, JPA, RESTful APIs

Databases: MySQL, MongoDB

Tools: Git, GitHub, Docker, Jenkins, Maven, JUnit, Selenium, Workato

Experience

Product Development Intern

May 2025 – Feb 2026

HighRadius - Hyderabad, India

Tools Used: Java, SQL, Spring Boot, React, Workato, JavaScript, JUnit, Selenium

- Developed a **Tenant Onboarding Portal** that streamlined consultant workflows and improved operational efficiency by approximately **80%**.
- Automated financial system connectors for SAP, Sage, and NetSuite using **Workato**, reducing manual effort by approximately **30%** and improving system performance for connectors teams.
- Collaborated with cross-functional teams to analyze requirements, resolve high-priority issues, and design scalable automation solutions that significantly reduced consultant request turnaround time.

Projects

NotesLink | Java, Spring Boot, React, Tailwind CSS

November 2025 – January 2026

- Built a **full-stack academic resource platform** to centralize hundreds of study notes and past exam papers into a single searchable interface, reducing time spent searching for resources.
- Deployed a responsive **React + Tailwind** frontend with **Spring Boot** backend and **MySQL** database, supporting **1,000+ monthly uploads** and user interactions.
- Optimized search and filtering features, enabling faster content access for **5,000+ active users** and improving engagement and discoverability.

KIIT MUN | Java, Spring Boot, MySQL

February 2024 – March 2024

- Engineered the **backend for a centralized event platform** for Model United Nations participants, delivering real-time updates across multiple committees and sessions for hundreds of attendees.
- Implemented **QR code-based attendance tracking** and secure backend APIs using **Java Spring Boot** and **MySQL**, reducing manual check-in time and errors during events.

Achievements & Leadership

- **Finalist, 2nd ICDCIT Hackathon (2025):** Selected among top teams from more than 20 participating universities.
- **Study in India Scholarship (100%):** Awarded by the Ministry of Education, India (2022–Present) for academic excellence.
- **Group Leader – UN SDG 13 Initiative (2024):** Led a 30-member team to conduct climate risk awareness and cyclone preparedness programs in Odisha, reaching hundreds of local residents through workshops and community sessions.
- **Core Member – KIIT International Student Society (2022–Present):** Coordinated events for 500+ international students and hosted major cultural programs.

Education

B.Tech. in Computer Science and Engineering

Expected: July 2026

Kalinga Institute of Industrial Technology – Bhubaneswar, India

CGPA: 9.6 / 10
